Established in 1882 as the
Minden Echo and Haliburton Recorder

5c PER COPY

Kinmount Area Uranium Strike Confirmed, Many Claims Staked

"An intensive uranium exploration program is now in order for a huge section of East-Central Ontario following successful results secured in an aerial Scintillometer survey program over 1,200 square miles flanking the Bancroft area in a roughly northeast-southwest direction. It is about 100 miles northeast of Toronto.

"The survey showed practically every known radioactive occurrence in this region. In addition, large and hitherto unsuspected radioactive anomaly patterns were revealed in no less than three separate sections 16 to 40 miles southwest of Bancroft and only a few miles north and northeast of Bobcaygeon. Eastern Ontario uranium mining now extends from one summer resort region, Haliburton with its Centre Lake and Faraday to another, the Kawartha Lakes.

"Completed by privately-financed Newkirk Mining Corp. as a followup to successful use of a similar air survey over the promising Faraday uranium property of the same interests near Bancroft, the aerial survey made fast ground action necessary to stake claims and otherwise protect discoveries made.

An intensive claim staking and land-optioning project was undertaken with the services of Geo-Technical Developments enlisted for supervision of staking.

Two carloads of men were brought to the scene in 18 hours from New Brunswick for the staking. Others were assembled from Little Long Lac. A force of 25 men quietly went to work in the Christmas holidays, staked over 300 claims. Leases were acquired on a great many farms as well. Because the work was done during the Christmas holidays, there was no competitive staking by outsiders.

The Newkirk interest feel that further fruits of aerial Scintillometer survey work may still be available and additional adjacent areas are now being flown.

It is already evident from the location of some of the anomalies that large areas shown as simply granite on existing geological maps will have to be remapped due to the presence of strong radioactive anomalies.

In fact, there is the distinct possibility that certain large areas previously believed granite, and inhospitable, may be the hot uranium country of tomorrow.

Aeromagnetic Surveys has carried on the radioactive survey for Newkirk Mining Corp. with a photographic record for orienting. The Newkirks have had their Faraday flown from the air on two separate occasions now and feel that ground orientation of aerial results in other sectors will present no great difficulties.

The air survey work has also shown numerous small situations which have not yet received ground attention of Newkirk Mining Corp. The most westerly area to attract big attention has been adjacent to Kinmount and 16 miles north of Bobcaygeon. About 16 square miles of farms have been optioned here by the Newkirk interests in the northwest portion of Galway township, Peterborough County.

To the east a total of 27 claims has been staked in the southwest corner of Cavendish township at a location about 14 miles northeast of Bobcaygeon.

But the biggest staking of all has been done to cover a series of northeast-southwest striking anomalies a little to the east again and due west of Apsley and just west of Highway No. 62. Over 200 claims have been staked.

Systematic ground survey work along lines used by the Newkirk engineers on the Faraday Uranium Mines property will be used on all three groups. Survey lines will be run, followed by ratemeter and geological studies. Results of this work will determine where diamond drilling will be done.

Faraday "Clicks"

Results quietly secured at the Faraday Uranium Mines property -- and the promise of adjacent lands -- was one of the factors leading Newkirk Mining Corp. to take on the big aerial programme of a type it is often expected governments to complete.

Sufficient ore has been indicated at Faraday to warrant a program of underground development but the full extent of the ore occurrence is not yet known, so that location for a shaft has not yet been selected. A third drill has been added and will speed securing of desired information.

So far Faraday has drilled 1,500 ft. of a radioactive zone some 8,000 ft. in length. "E" anomaly has produced a length of 320 ft. averaging 0.129 per cent U_3O_8 or \$18.70 a ton across an average width of 27.8 ft. at the price of \$7.25 a lb for uranium oxide. Separated from this by 1,300 ft. is another length of 1,160 ft. averaging \$6.52 a ton across the big average width of 81.8 ft. at the \$7.25 price (which the management expects will be increased). The third drill is now working on filling in the 1,300-ft. gap between the two sections.

Bonville Gets Deal

Aerial survey work completed by Newkirk Mining Corp. has also revealed a half-mile long anomaly on a group of about 450 acres adjoining to the west of Faraday Uranium Mines. This group has now been turned in to Bonville Gold Mines which has apparently been selected as the first Newkirk public-financed company to enjoy the benefits of recent survey results.

Although of relatively recent formation, the aerial survey project was No. 89 for Newkirk Mining Corp. As a company engineer puts it, the project involved the application of good engineering practice to determine the wider possibilities of what was recognized as a "hot" uranium area.

S. A. Holding "Rallies for Christ"

The first meeting of a series of "Rallies for Christ" was held in the S. A. citadel

on Wednesday night. Sr. Major McEachern, who will be the special speaker at all these rallies, conducted the service.

The Major has been an officer in the S. A. for a number of years, having entered the Army's Training College back in 1905 and he travelled from coast to coast in his various appointments. He has seen service in all the provinces except Newfoundland, most of this service being spent in the extreme western and eastern provinces. — Except for one social appointment he has been a Field Officer for all of his Army experience.

Since his retirement from active service he has been doing special revival work in Ontario, New Brunswick, and Nova Scotia. This fall and winter he has been campaigning in the northern Ontario Division and his efforts in this regard have been most successful. Major McEachern came to Haliburton from Barrie and following the rallies here he will continue his revival work at Midland. It is hoped that many will find it possible to hear him while he is with us. — The rallies are being held every night (excepting Saturday) at 8 p. m. and will continue until Tuesday night of next week. Services all day Sunday.

Kinmount May Have Community Hall

Reeve C. O. Hodgson of Somerville township called on the Echo recently. — He stated that in his opinion the Kinmount bridge would be erected this year, that it was temporary held up thru Peterboro County failing to ratify it at the January session, but it would be passed at the March session. — Present plans call for the bridge to be 110 ft. in length with a 24 ft. roadway and a sidewalk on the east side.

Hopkin's Hall is now for sale and would make an excellent Community Hall. Mr. Hodgson stated that the Provincial Government would pay 25 p.c. of the cost of such an enterprise. The building is quite spacious of cement block construction and is situated on Crego St. close to the Main St. With some repairs and painting this building would be a great benefit to the young people and an asset to the village.

United Church Choir Elects Officers

Last Sunday evening, the choir of Minden United Church met at the home of the Rev. and Mrs. Vaclavik for the purpose of electing officers for the coming year.

Mr. Vaclavik was chairman of the meeting.

Those elected to office were: Choir-Leader: Mrs. Grace Coburn;

Assistant: Miss S. Howard Pres.: Mrs. Garnet Lazier;

Vice-President: Mrs. Robt. Herlihey;

Sec'y-Treas.: Percy Brintnell;

Social Convenors: Mrs. Herlihey and Miss Baggs;

Librarians: Miss Sylvia Howard & Miss Carol O'Neil;

Board Official: Mrs. Lazier.

A delicious lunch was served and was followed by a social hour.

St. Paul's Hold Annual Vestry Meeting

The congregation of St. Paul's Church held their annual vestry meeting on the last Monday in January. — Preceded by a delicious Pot Luck Supper served by the ladies, the meeting was held in the Parish Hall with the Rev. Ross Woolley in the chair.

Mr. J. O. Jackson was elected Vestry Clerk and then Mr. Woolley reported briefly on the progress and needs of the parish in the last year, thanking the W. A. and the Girl's Guild for their untiring efforts. In the absence of the People's Warden, Mr. J. M. Irwin, because of illness, Mr. Jackson presented the financial report. Mr. Woolley appointed Mr. Irwin as his Warden on the retirement of Mr. J. Lorne Dawson and Mr. Clifford Dawson was elected People's Warden. Mr. Walter Noice and Miss Ida Noice were elected Lay Delegates to Synod. Mrs. J. M. Irwin as the Envelope Secretary, Mr. E. L. McCarey as Chief Sidesman and Mrs. John Hewitt and Mrs. J. O. Jackson as the Auditors. Votes of thanks were recorded to Mr. A. H. Cuttle for taking the services until the appointment of Mr. Woolley, Mrs. Grace Coburn for directing the Choir and Mr. Charles Brandon, Mrs. Donna Woolley and Mr. Gordon Fleming for playing the organ.

Mrs. Jean Pennycook Passes

Mrs. Jean Pennycook who has been residing near Allsaw was found dead in her home on Monday morning last.

The late Mrs. Pennycook lived alone and it was the custom of neighbors to call every day to enquire as to her wellbeing.

When Mrs. Elstone called and failed to receive any response she asked the Minden operator as to whether the phone might be out of order but when it was found that the phone was alright Prov. Const. Rickard and the Coroner Dr. Jamieson of Minden went to the deceaseds residence and found that she had passed away of natural causes presumably sometime on Sunday.

The body of the late Mrs. Pennycook was taken to Toronto for interment.

Second Hand Shop Destroyed By Fire

A fire which occurred early Sunday morning last completely destroyed the building owned and operated as a second hand shop by Mr. Ephraim Sipe in Haliburton.

Mr. Sipe who is at present working at Combermere has not been operating the shop during the winter months — but had been securely locked and boarded before leaving.

At the time of the fire the building was not occupied hence no stoves were going and it is hard to ascertain how the blaze started but it is believed that an entrance had been forced on Saturday evening to provide shelter for a few Saturday night prowlers who carelessly dropped a cigarette butt.

The loss was partially covered by insurance.

An Idiot In Our Midst

As we have not been notified that any of the inmates of our mental institutions have escaped it is our opinion that some person or persons who should be confined to a padded cell are residing in our midst.

A week ago last Saturday evening or Sunday morning we discovered that one of the windows in our printing office was broken by a whiskey bottle which had been thrown thru it and on Saturd. night last a beer bottle was thrown thru the window of the residence of Mrs. Lucas.

A window can be repaired but anyone in the vicinity of the window, when one of these bottles comes hurtling thru might receive painful injuries. It is hard to believe that any sane person, drunk or sober could be guilty of such an offense.

Ed. Harding Made President

At a recent meeting of the board of directors of the re-organized Armour Uranium and Copper Co. Ltd. Mr. Ed. Harding of Minden was made president. This Co. has very valuable copper claims in the Capreol area and have diamond drilling operations underway there.

Mr. Harding is also a director of Inter Metals Finance Ltd. which are developing uranium claims in the Blind River district and are interested in property in Galway Township.

Correction

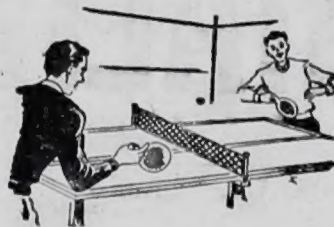

We have a correction to make on our front page story in last week's issue of the story "Kills Huge Bear With Axe". — The curiosity got the better of Stan Coulter instead of the men as reported. It was Howard Lee who killed the bear, not Irvine McKelvey. And the last paragraph should have read: Bruins head now adorns the truck the boys use to haul logs to the mill.

Smile

The station agent phoned the hydro foreman and told him 200 poles came in on the train. The foreman said, "Where are they from, Warsaw?"

COUNTY SPORTS

Loose Ends from the Sports Editor's Desk

George Abbott the former N.H.L. netminder and now coach of the Haliburton Huskies will be in the Huskies net this Saturday night. He will replace the ailing Al Blanchard. Two of the Huskies players have been shooting at George all week to get his eye sight back for this all important game with the Sutton Greenshirts.

There's a busy week coming up in the H. M. H. L. This Friday night Feb. 5th Wilberforce Midgets at Haliburton Midgets A and Wilberforce Pee Wees will play the Haliburton Pee Wees. On Sat. night Feb. 6th, Haliburton Midget A will meet the Haliburton Midget B team.

On Tuesday Feb. 9th, Haliburton Pee Wees at Minden Pee Wees and the Haliburton Midget A at Minden Midgets.

Minden Curling News

Since last report, the Minden Ladies have really been travelling about the country. Last week two rinks journeyed to Lindsay and participated in the Lindsay Ladies Bonspiel. Although our Ladies weren't victorious, they made a very good showing.

Last Tuesday evening, three rinks were guests of the Haliburton Ladies Curling Club, and thoroughly enjoyed themselves on the keen ice. They managed to win one game and next year promise to give a better accounting.

Monday of this week, the club sent two rinks to the Bonspiel in Woodville and came out with two wins in the first round. However, in the second and third rounds, they met very stiff opposition from Beaverton and were forced down to defeat.

In our home schedule, the results of games played last week are as follows:

Marg. Brown 7	Ina Brintnell 7
Marg. Brown 7	Syl. Howard 5
Jean Jackson 8	Shirley Brandon 7
Illa Lytle 8	Jean Jackson 0
Ina Brintnell 12	Laura Kirkwood 5
Marj. Windover 5	Laura Kirkwood 1

O H A - STANDING

(up to Thursday, Jan. 28th)

	P	W	L	T	Pts.
Sundridge	10	9	0	1	23
Bracebridge	13	10	2	1	21
Parry Sound	11	6	4	1	15
Minden	9	3	5	1	11
Midland	11	2	9	0	4
Gravenhurst	12	1	11	0	2

Sundridge's total includes two 4 pt. games, Parry Sound has one 4 pt. win and Minden two 4 pt. wins.

Haliburton Legion Carnochan Pulls Hat Trick

The Haliburton Legionnaires, Haliburton's entry in the Little N. H. L. moved closer to first place in the Northern Hockey League on Wednesday night last, when they knocked off the Wilberforce hockey club at the Monmouth Community Centre. — The Haliburton club braved a terrific storm to travel over very bad roads to keep their date with the Wilberforce club.

Harry Brohm, who since that time has moved up with the Huskies was the big gun for the winners, as he shot home three goals for the hat trick. Bill Rinne scored two goals while Gary Watt banged home a single counter for the Legion club.

Coach Stan Roberts has a good front line now that is really rolling along with H. Brohm playing centre ice for Bill Rinne and Jimmy Pearson. But he may have to replace Brohm - who is now with the Huskies.

Don't forget every Wednesday night Little N. H. L. hockey in Haliburton.

As Huskies Win

The Haliburton Huskies skated to a 9-1 win over the Beaverton Hockey club in Beaverton on Tuesday.

A very small crowd turned out to see the locals win their second straight game over the Beaverton team. — Led by Ken Carnochan who is on a terrific scoring spree the Huskies had very little trouble in trouncing the weak sister of the Tri-County group. The Huskies got off to a 2-0 start in the first period they increased this lead to a 5-1 at the end of the second. And when the final bell sounded the Huskies were off with a 9-1 win.

Goal getters for the winners were Ken Carnochan with 3, Herb Baker with 2, Stuart Baker, Jim Henry, M. Scheffee and Boyd Robertson with one goal apiece. The win for the locals was just a good warm up for the exciting game this Saturday night when Ellis Pringle brings his Sutton Greenshirts to Haliburton.

Beavers Defeat Monarchs 11 - 7

The Sundridge Beavers showed why they are the class of the O.H.A. Intermediate League when they invaded Minden last Thursday night and handed the Monarchs a trouncing to the tune of 11-7. A big, powerful and well-balanced outfit, the Beavers took charge from the opening whistle & were never headed although Minden did manage to tie it up once in the third period.

Sundridge opened the scoring at 7:15 of the first period when Russell scored on a pass from Sedore. K. Kidd from Moiridge at 11:39 and Moiridge from Johnstone at 14:49 made it 3-0. Minden broke into the scoring via Perc. Nichol on a pass from Glen Vasey at 16:38.

In the second canto the Beavers continued to dominate the play even though Minden did score first when Poole connected at 0:08 before the customers were comfortably seated again. — But Johnstone at 8:29 and Moiridge at 13:08 nullified that effort before George Nichol scored on a beautiful solo effort at 13:59 when he decked the defence and blasted one into the bottom corner of the Sundridge goal. Moiridge again put the Beavers three up when he scored at 18:10.

The third period was the best as for as Minden fans were concerned as the Monarchs roared back to tie it up via the stick of Perc. Nichol. He counted three goals in short order on beautiful plays that had the crowd on its feet. Then the Monarchs seemed to run out of steam when Perc. Nichol was put off for fighting. Before he got back on - Sundridge had scored four times to salt the game away even though the teams were playing five a side. Perc. Nichol scored his fifth goal before the night was out but Sundridge counted again to wind up the score and most of the action.

Bracebridge Edges Minden

Saturday night saw the Bracebridge Bears edge the Minden Monarchs in Bracebridge by the score of 5-4. The Monarchs came up with a good effort and were storming the Bear goal looking for the tying counter when the final bell went. — The Bears opened the scoring in the first period when Nichols counted.

In the second period Wheeler got two for the Monarchs Nichols got his second for Bracebridge and then D. Rowe counted before Neil tied it up for Minden.

In the last period D. Rowe got his second Robinson counted once to lead the Bears while Loughheed finished off the scoring for the Monarchs.

Austin and Abbott Doing Great Work With Huskies

George Abbott - the new Haliburton Huskies Coach is doing a great job in Haliburton. Not only is he a great hockey coach but a man that is doing a good job in the community. George is the kind of a fellow that mixes good with all and he has a terrific knowledge of bringing along the young boys, who are starting up the hockey ladder. You can notice a big difference in these players already but as Geo. puts it it will be three or four years before the results of his work will be shown. He has been juggling the Huskies lines around quite a bit this season in an effort to get three good lines in contact. The Huskies have dropped a few games this year but by the time the play-offs roll around the men of Abbott can be counted on to get in there and give their all. Don't count the Huskies out, this could be their big year.

Standing by right along besides George is that ever hard working man for hockey in Haliburton, Jack Austin. Jack is one of the best managers in Canada & without him - the Huskies would be very lucky to ice a team. We should be proud to say that we have two men of such high caliber as George Abbott and Jack Austin leading our Senior hockey club, the Haliburton Huskies.

FLASH—

We have just received word from the management of the Haliburton ... Huskies ... that coach George Abbott will be in the net for the Huskies this Saturday night against Sutton. He will replace the regular netminder Al Blanchard for this game.

In the Goal Crease

Perc. Nichol has hung up his skates. The doctor has advised him to quit because of his ulcers. Borden Wheeler is coaching the team. Shalla and Watt probably won't play any more games until the playoffs come along. The Monarchs have a new man by the name of Vanciel a cousin of the Bracebridge defenceman. Once he gets his skating legs he should be quite a help. He's big and strong. Glen Vasey played centre at Bracebridge Saturday night and came up with a top effort. The Bears may have passed their peak. Sundridge is definitely the team to beat on their showing so far. Minden meets Sundridge in the first round of the playoffs. It should be quite a series before its written into the records.

Here Comes Sutton Sat. Night

The drums go bang and the cymbals clang and Sutton will bang away this Saturday night when they drop into Haliburton to tackle the Huskies in a regular Tri-County O.R.H.A. game.

Yes, Ellis Pringle, the very popular Sutton coach has sent through word to tell all the hockey fans that he'll be here with his band of hockey players who always make things tough for the locals whenever they show here.

The Sutton club at present are fighting it out for first place with Woodville Maroons while the locals are playing hard for a play-off birth. — Last year Suttons appearance drew nearly a 1000 spectators to the local ice palace. And if you remember the Huskies won it. This season the Huskies are all pepped up over Sutton coming and Coach Abbott has been drilling the club very hard in an effort to have the team in good condition for the battle. If you are a great hockey fan this is a must for your hockey entertainment.

So right now write it down in your date book for this coming Saturday night when Ellis Pringle will bring his Sutton Greenshirts into Haliburton. It's this Saturday night Feb. 6th. And this great club will be coming to Haliburton at the same admission price, for Adults 60 cents and children 25 cents.

You can tell them, we'll be there.

O'Keefe's WEEKLY SPORTS CALENDAR

The next home game of the Minden Monarchs will be next Thursday night, Feb. 11th at the Minden Recreation Centre. — The visitors will be Parry Sound. Game time 8.30 p. m.

The game that you have all been waiting for will be played at the Haliburton Community Arena this Saturday night when the Sutton Green shirts meet the Huskies in a regular scheduled O.R.H.A. contest.

Games in the Little N.H.L. next Wednesday, Feb. 10th, finds Haliburton playing W. Guilford at Haliburton and Wilberforce will take on Gooderham at Gooderham.

EDITORIAL

HE SMILED

A friend of ours is not a natural smiler—in fact he is somewhat the opposite, a sober sort of a chap who quite frequently wears a frown. However, he rather thoughtlessly allowed one to decorate his face a few mornings ago and this is what he told us.

As I stepped out a door I overheard a man say something that pleased me and I laughed. I walked down the street and greeted to my surprise a half dozen or more men I met, men whom I had seen frequently but never spoken to, smiled and said "Good Morning". I could not understand it.

Then it occurred to me to examine my own face and I found that I, too, had been smiling and, as old as I am, right then and there I learned a valuable lesson that I am going to repeat and repeat until I form the habit.

Situated midway between a frown and a Cheshire cat grin is a pleasant smile that warms the heart of the one who receives it.

What has this to do with business? Well, if you will allow your mind to wander around a bit and then localize, you will recall some business organizations that smile and some that frown at you. Other things being about equal, who gets your money?

We are not preaching sermons or indulging in platitudes, but if your business is not presenting a smiling face to your customers, do not blame Providence when it shows in the red.

And you'll find a smile so much easier on your face than a frown.

THE QUIET HOUR

By STUART C. WILSON

The Lord Jesus in speaking of His second coming to this earth in the 17th chapter of the Gospel of Luke refers to the flood and also to the destruction of Sodom. He brought out the comparison that as it was in the days just previous to these events, so it would be in the days just before His return to this earth. People in Noah's time and in Lot's day ate and drank, married and were given in marriage, bought and sold, planted and built, until the judgment of God fell upon them. Now outwardly, these things seem an account of ordinary daily life. However, the whole trouble with their doing of these things was that they were doing it without a fear of God before their eyes. God was left out of their plans, and they had no love nor reverence for Him and His claims on them. This sort of living is very prevalent today and we must realize the need of allowing God to have first place in our lives. The Lord Jesus in foreseeing this sort of living today said, "Remember Lot's wife".

Now consider a few things about this woman whose name scripture does not reveal. First of all we would do well to remember her privileges. She was one who was related to the people of God. Her husband, though living in disobedience to the will of God, was a righteous man according to the revelation of his character in the New Testament Abraham, the man of faith, was Lot's uncle. Mrs. Lot then would certainly be very familiar with the ways and dealings of God. She would be faithfully instructed as to how God would expect her to live in order to please Him. Not only was she privileged in these ways but she was well warned of the danger that was coming. Two heavenly messengers were sent to Lot's house to warn him and his family about the coming destruction. They even spent the night in Lot's home fully instructed and revealing God's will. So Mrs. Lot was very privileged in her life, and was amply warned of her peril. We too are very privileged today. God has spoken to us on every hand. There is not one of us without the blessed privilege of reading the word of God. Yet I wonder how much we read it for ourselves. — There has never been any literature written that can take the place of the Bible. May the blessing of having the Holy Scriptures be appreciated by each one of us. Remember then this woman's privileges, and compare them to your own.

Then too, we should remember her sin, because it can be present in our own life. Mrs. Lot's whole life and affection was wrapped up in the things of this world. She placed no value on eternal realities. There was no thought in her life of laying up for herself treasures in heaven. Her love was all centred on material possessions. However there was something in her life that was far worse than this. Within her being there was the sin of unbelief. She didn't believe what God said. This is the sin that sends men and women to a lost eternity today. Unbelief so often enters the life today with the reading of books about the Bible, instead of the pure Word of God itself. Let us get back to daily reading of the scriptures and let us believe what God says about eternal realities. "Take heed", said the writer of the Hebrews, "lest there be in any of you an evil heart of unbelief in departing from the living God".

Remember the fate of Lot's wife. She "looked back from behind him, and she became a pillar of salt". Her fate was sudden, overwhelming, and final. To trifle with God's Spirit is to be on dangerous ground. To pass out of this life without Christ as your Saviour is to enter the eternal regions of doom and darkness forever.

Beware then of earthly entanglements. Beware of questioning God's commands. Beware of delay. Beware of the backward look. "Remember Lot's wife".

The "Get-well" Card

A beautiful box of violets
Came in the mail today.
They were chosen in loving
kindness

By a friend who is far away.

They tumbled out of a
cunning box

That was drawn on the
"get-well" card.

They reminded me of the
violets

In the spring—in my own
back yard.

I breathed the fragrance of
perfume

In the card sent so thought-
fully.

Your face nodding midst the
violets

Smiled at me happily.

Your lips smiled the happy
message,

Get well—what a sweet
surprise,

Joy—past the power of
rhyming

It's shining now in my eyes.

Mavis Noice.

MINDEN

Mr. A. Stouffer was guest speaker on Friday evening, at a meeting of the Leaside Branch of the Canadian Red Cross Society held in St. Cuthbert's Church Leaside.

Mr. Gordon Fleming visited Friday and Saturday with Mr. and Mrs. Duncan Fleming and Mr. and Mrs. Reg. Foster of Toronto.

Weekend guests of Mr. & Loyne Cox were Mr. and Mrs. Mervyn Horseley of Bobcaygeon.

Mr. Bob Finley of Toronto spent the weekend with his parents.

Mr. Thomas Madden arrived on Friday from Dayton to join his wife who has been visiting with her parents. Mr. and Mrs. Tom Newell. They left on Tuesday for Saskatoon.

Miss Jean Windover and Mr. Gary Vasey of Toronto spent the weekend with their parents.

Mr. and Mrs. Cliff. Booth and family were weekend guests of Mr. and Mrs. Mark Vasey.

Mr. and Mrs. Bert Boice of West Guilford were Sunday visitors with Mr. and Mrs. Reg. Welch.

Last Thursday evening, — the choir of St. Paul's Anglican Church made a presentation to Mr. Gordon Fleming in appreciation of his thoughtful assistance to the choir during the past weeks.

We would like to welcome Mrs. M. G. Ranney to Minden. Mrs. Ranney is the new operator of the Elizabeth Anne Beauty Salon.

Don't forget the Girl's Guild meeting tonight at the home of Mrs. Ern Hewitt.

Miss Shirley Balkwill formerly of the Elizabeth Anne Shoppe has taken a position in Cox's Apparel.

We are pleased to report, that Mr. John Hughes is home again after a lengthy stay in hospital.

Miss Harriet Lazier and Mr. Eddie Hone spent Sunday in Buttermilk Falls.

Mr. George Sears is making satisfactory progress after undergoing surgery in Lindsay Hospital.

HALIBURTON

Mr. and Mrs. Jack Lyons were visitors in London and Centralia last week.

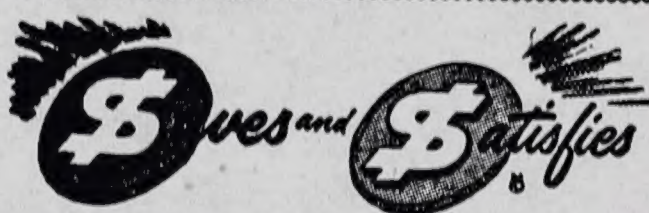

Miss Helen Elstone of the Bank of Montreal staff is at present spending her holidays in Peterborough.

Mr. & Mrs. Joseph Williams of Sudbury are holidaying in Winter Haven in Florida. — Mrs. Williams is the oldest daughter of Mrs. Roy Howe of Haliburton.

The '54 BUICK's got it— The Big Change you've been hoping for!

The instant you see these 1954 Buicks, you'll know that something sensational has happened in automobile styling.

Here is vastly more than the usual model changeover. Here is vastly more than could be done just by warming over what Buick had before. Here is something accomplished by going far beyond artful face-lifting.

Here is that rarity of rarities—a completely new line of automobiles.

But Buick didn't stop with the bolder, fresher, swifter-lined beauty you see in raised and lengthened fender sweep—in the huge and back-swept expanse of windshield—in the lowered roof-line—in the host of extra glamor features of exterior modernity.

They upped all horsepowers to the highest in Buick history.

They engineered a new V8 for the low-priced SPECIAL, so that now the entire Buick line has Buick's famous V8 engine—and in the process came up with new Power-Head Pistons that boost gasoline mileage in every engine.

They brought to market a sparkling newcomer with a famous name, the Buick CENTURY—a car with phenomenal horsepower for its weight and price—a car with more pure thrill per dollar than any Buick ever built.

And they did all this without change of the price structure which, for years, has made Buick the most popular car at its price in the world.

We invite you to come in and inspect these great beauties, these great performers, these great buys. Then you'll see why previewers are already saying, "Buick's the beautiful buy!"

WHEN BETTER AUTOMOBILES ARE BUILT—BUICK WILL BUILD THEM

BUICK the beautiful buy

Minden Rotary

Last evening Minden Rotary was addressed by A. B. Wheatley of the Dept. of Lands and Forests, Lindsay. Mr. Wheatley spent a few minutes outlining the present set up of that organization as to districts and scope and well as policy. This later is taking a long term view in that a certain area should not have greater timber cutting taken place than will be replaced by the natural growth. This figure he admitted would be hard to arrive at in that various type of trees take from 50 to 100 years to become "ripe" so that it will need the experience of a period of time to accomplish this objective.

His short talk was followed by a sound motion film which should be seen by all who live on the land in this county. One side shows a farmer who finding going tough sells the right to cut all timber in his wood lot for a fixed sum. While the farmer flush with cash at the moment pays his debts and buys some things for his home and children, yet in a few years finds himself worse off with no timber revenue, is forced to return to his fathers farm where orderly cutting has been the policy for years, and which maintains the growth and provides an annual revenue and of course a much better set up all around.

It is a matter worthy of serious thought in this county which is largely covered with timber.

Card of Thanks

I wish to thank the Fire Dept. and citizens of Haliburton, who worked so hard to save the remaining buildings and truck in the fire, which occurred early Sunday morning. I, especially wish to thank Curry Motors for their part in saving the truck. Also thanks to the Star Cafe for refreshments served.

My thanks to you all!

E. A. Sipe

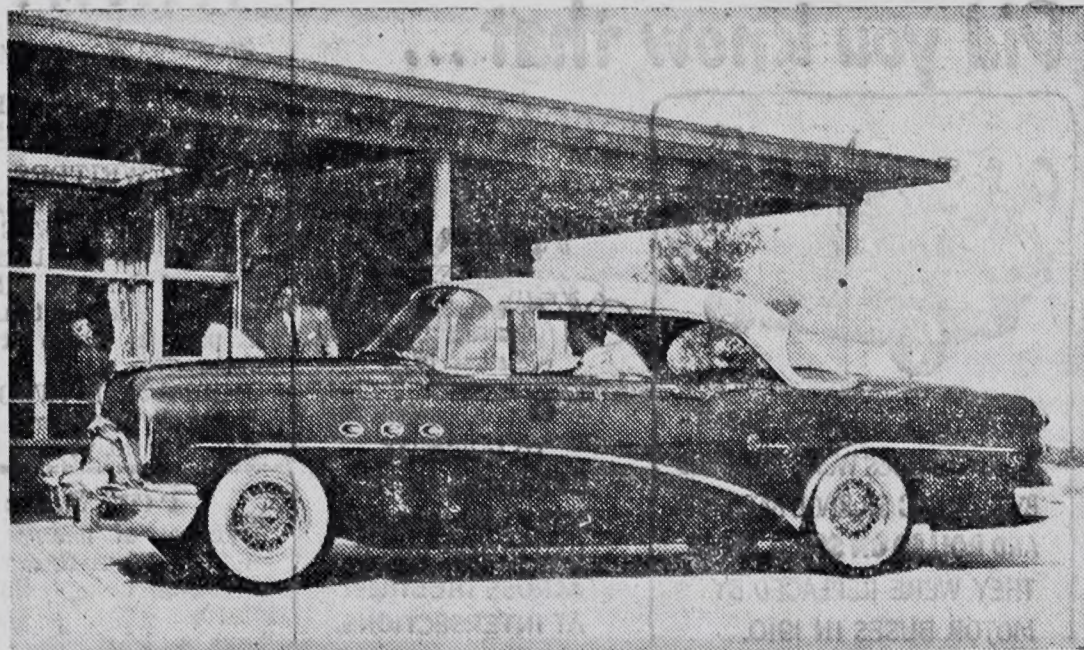

Lochlin Farm Forum

On Monday, Feb. 1, C. W. Hodgson was guest at the regular meeting of the Lochlin Farm Forum when the topic for discussion was Tariffs, Barriers to Free Trade.

The meeting felt that, instead of two tariff boards at present Canada and the U. S.A. should have a joint tariff board. They should combine their efforts and work things out for the greatest good to the greatest number in both countries.

Mr. Hodgson gave the members a great deal of information on the many other topics of general interest. His visit was enjoyed by the large crowd. Clayt must have enjoyed himself also, for as he was leaving he pulled a bunch of notes out of his pocket remarking, "Here is the speech I prepared for tonight."

Forum meets next Monday night at J. B. Sedgwick at Gelert.

The rakish sports car styling of Buick's two-door Super Riviera sedan makes it a sure-fire beauty winner for 1954. Modelled after Buick's famed Skylark sports car, it features the new panoramic windshield, a cut-down door belt line, full rear-

wheel cut-out and a refined sweep-spear molding. The Super Riviera is mounted on a 127-inch wheel-base and is powered by a 182-horsepower V-8 engine when equipped with Twin-Turbine Dynaflo. Wire wheels are optional.

The Cock and the Jewel

A COCK, scratching the ground for something to eat, turned up a Jewel that had by chance been dropped there. "Ho!" said he, "a fine thing you are, no doubt, and, had your owner found you, great would his joy have been. But for me! give me a single grain of corn before all the jewels in the world."

MORAL: It's far more important to have the things you really need, than to have luxuries. That's why you should do as so many other far-sighted Canadians do—build up a savings account at The Canadian Bank of Commerce. Then you will be sure you need never go without the necessities of life. Visit our nearest branch today.

THE LIFE OF A LUMBERMAN

by George S. Thompson

Charlie, as Mr. Stewart is familiarly called by nearly everyone acquainted with him, went right through to Haliburton with me that day and he took advantage of the occasion and of my innocence to regale or "stuff" me with all sorts and kinds of stories that are usually trotted out for a new arrival's benefit. I did not mind Charlie taking a few "rises" out of me, for he did it in an inoffensive way, for he is a perfect gentleman and a good-hearted genial fellow. I could also afford to put up with Charlie's jokes, for at quite a number of stopping places he set up the beer in good style. The Bobcaygeon road appeared to me on that trip to be one long drawn-out tavern, for nearly every other house along it sold Whiskey or beer, and without a license at that. The Bobcaygeon road is celebrated the world over as being one of the roughest of roads.

"Uncle Jim Welch" a well known character in Peterborough and district who used to buy furs, swap horses or make most any kind of a trade once told me that he was one time travelling over the Rocky Mountains and was sitting on a stage—on the front seat of one of those celebrated stage coaches. Uncle Jim said, just as they were travelling over a most infernally rough and dangerous stretch of road, he remarked to the driver that it was a very rough road that they were then driving over. The driver replied that it was nothing to a road he had at one time driven a stage on in Canada. Uncle Jim enquired of the driver the name of that road; the driver answered it was called the Bobcaygeon road.

I certainly thought my toe nails would be shaken off in that first trip of mine. The settlers along the road, Mr. Stewart told me, were nearly all old soldiers - pensioners, whom the Government had given grants of land to, for past good conduct and service. This news settled me from ever wanting to be a British Soldier, for, I thought, if that was the way they rewarded those who had merited reward for good conduct, I wondered what the fate of those could be who had a bad conduct served up against them.

I need scarcely explain what little soil there is along the road is largely composed of sand and the balance rock, that is if rock can be called soil. I afterwards used to hear those old pensioners say that they wished they had brought some of the old cannons, captured in the Crimean War with them, so they might shoot the seed into the ground, for they said that was the only way they knew the seed would be successfully planted in that kind of soil.

It was along this Bobcaygeon road that a farmer, when pointing out the good features of his farm, probably to some stranger, with a view of selling it, would always claim that the back fifty was splendid farming land; of course the settler could not help but admit that the front fifty was a little rough and rocky, for the stranger could usually see that for himself. This "back fifty" racket got to be a well known remark, and it was often provoked a smile from parties who were not so green as they looked. To explain, so that any one will understand the joke, I may say for the benefit of those who do not know, that free grant lands in the province of Ontario are usually surveyed out in one hundred acre parcels or lots.

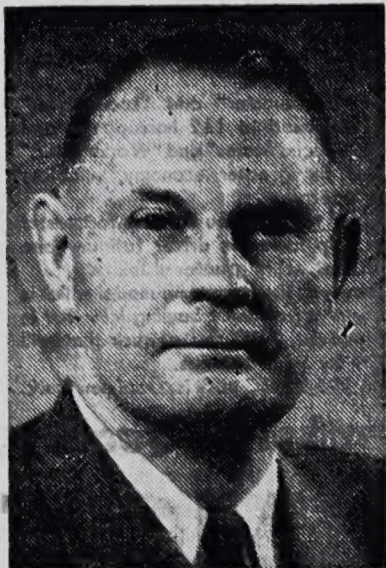

The country along the Bobcaygeon road was at one time heavily timbered with the very best quality of white pine; the pensioners, when clearing the land, made fires which burned and destroyed the forests of pine causing a loss to the people of Ontario of millions of dollars, so the poor old soldiers took their revenge on an ungrateful country. Of course they had no idea of revenge in their minds when they set fires, but it acted that way all the same. — Most of the clearing made by those early settlers have long since been deserted & are now growing up with useless bush instead of being replanted with young pine or other valuable trees. To proceed on my journey; the stage arrived in Minden at noon. Mr. Stewart pointed out George's brother to me; he happened to be about the first man we saw as the stage rattled down the hill into the village. He was standing in front of the post office, no doubt awaiting the arrival of the stage. George had told me that his brother carried the mail from Minden to Haliburton, a distance of 20 miles.

(To be continued)

Thos. N. Redner, Sec.-Treas.

MAPLE LAKE

increase of \$4,000.00. George Drew, leader of the Conservative Party opposed the Bill in the resolution stage, on the grounds that the increase was too high, and thought that Cabinet Ministers and he himself should not have any more of an increase than the private members, and that should not exceed \$2,000.00, and the Senate should be left with no increase at \$6,000.00. He moved a motion that the matter of increasing salaries should be left to the decision of a Royal Commission. The speaker ruled him out of order and a regular dog-fight debate ensued. The House was in an uproar as Liberals pounded their desks and cat-called at every Conservative that tried to speak. Such names as "traitor" and "hypocrite" were quite prevalent. After two hours of this procedure the Speaker restored order and the Prime Minister's motion passed with all the Liberals, all the Social Credit and most of the C.C.F. voting for it. When the Bill comes before Parliament for second reading the Conservatives will move an amendment designed to exclude the Senate from any increase and to cut the suggested increase to Members, the Cabinet, the Leader of the Opposition and the Speaker of both Houses. There are prospects that a few of the C.C.F. and a couple of the Social Creditors may support the Conservative amendment, but in any case it will be a small minority.

If, by an outside chance the Government accepted the amendment, it would bring on a prolonged dispute between the Houses. A number of Senators have let it be known that unless they were included on the pay-increase they would oppose the whole thing. The senate can amend a bill sent to it by the Commons by reducing the amount of money to be spent under the bill. It cannot increase the amount to be spent without the consent of the Government. Because the increased indemnities require the expenditure of money, a hostile Senate could delay the bill indefinitely.

Progressive Conservatives to-day were heartened by a still unpublished public opinion survey which is reporting 60 p.c. of Canadians against the increase to \$10,000.00, and only 22 p.c. for it.

In Ontario, according to the survey, opinion runs most heavily, 64 p.c. against the increase. The Bill, given first reading in the House went be coming up for second reading until sometime next week at the earliest.

On Wednesday, the Committee on National Defence, went to Montreal on an inspection tour and display of manufactured aircraft, leaving Ottawa by air at 9 a. m., returning at 6 p. m., and your humble servant was included.

INGOLDSBY

Mr. and Mrs. Ken Bantan have returned home from Toronto after a pleasant visit with relatives there.

A picture slide was given here last Friday night. The proceeds to go toward "The Men's Club".

Mr. Ed Fielding is visiting relatives in Toronto.

Sorry to hear that Bert Harrison of Allsaw met with a painful accident last week while cutting ice. We hope for a speedy recovery.

Mr. Cecil Milligan — who works at Oshawa spent Saturday and Sunday with his family here.

Reg. Burk & Grant Crofts who are employed with the Hydro were home for the weekend.

Mr. and Mrs. Frank Price of Toronto spent the weekend at their cottage.

Wallace, Wagg who is stationed at Peterboro was home this past week on a week's leave.

Mr. and Mrs. Jack Francis have moved into their new home at Ingoldsby.

Mr. Roy Emmerson has returned home from Toronto.

Mr. Norm Harrison Sr. motored to Toronto last Wednesday.

Keith Hill, Doug. Eastman Don and Chuck Hicks were home from camp over the weekend.

Wayne Milligan and Ivan Carpenter attended the hockey practice at Minden on Saturday.

For instance, the "Thrifty" and "Loadmaster" engines have been increased to 112 horsepower and the two other engines, "Torquemaster" and "Workmaster," have been improved for greater economy, smoother cruising and quieter operation.

And ask your dealer to show you the Comfortmaster Cab features which help to lessen driver fatigue—see the new Ride Control seat, enjoy greater visibility.

Then ask him to show you the handsome model which is ideally suited to your own particular hauling job. For in the more than 50 models, GMC has a truck that will mean greater profits for your business.

And remember—a 1954 GMC truck is a real new truck.

GMC Symbol of Quality

Here's wonderful news for heavy-duty truck owners. For the first time in history GM offers you 8-speed Hydra-Matic Transmission on the famous M-450 and M-470 series. Lighter truck owners can go automatically, too, with the option of Hydra-Matic Drive on the 9300 and 9400 series. With Hydra-Matic, your truck is in the right gear, always.

THE KIDDIES CORNER

IGLIP HEARS A VOICE

As you will remember, we left Mr. Man in The Moon gazing down upon and, of course, getting all ready to let the fairies know that they have, at long last, reached the end of their journey.

How, Mr. Man in The Moon thought that all of the fairies were asleep. It seems, however, that he was wrong, because, as we look in upon the scene we find that Iglip, the head leader of fairies, had not, as yet, closed an eye. Tired and worn out as he was, he simply had not been able to sleep. His little mind was too filled with the thoughts of the fairies' plight. He had just gone to bed to roll and toss about like a storm-tossed wave.

As our poor little sleepless Iglip lay there upon his little bed, he was suddenly aware of what sounded to him like a wee, small voice calling his name. It was a faint little voice which seemed to be coming from a very great distance away. Iglip sat up in bed and listened. Maybe it would come again. Once again Iglip heard the wee, small voice. It wasn't a very loud voice, but then, fairies' ears are ever so sensitive and even a faint noise can be heard from a very great distance away. "Iglip, called the wee, small voice call all the leaders and come to the outer border of the forest." Why, someone was speaking to him from somewhere up there in the brilliantly lighted sky. Looking up, Iglip searched the sky for a glimpse of the owner of that voice. "Up here Iglip". "It is I, your good friend Mr. Man in The Moon." Iglip then turned his eyes to gaze at the moon. Little eyes almost popped right out of his head for sure enough there just as clear, as clear as could be, stood Mr. Man in The Moon. "Come Iglip, awaken the other leaders and follow the ray which I shall send to guide you to the outer border of the forest", said Mr. Man in The Moon as he smiled down upon his little friend.

Immediately, Iglip climbed quietly from his bed. In a soft hushed voice, Iglip called to the other leaders. "Are you awake?" He whispered. There was a stealthy movement from the nearby beds as the little men called back a whispered reply. "We are awake", they said. "Come then whispered the head leader of the fairies, and follow me".

Softly, and ever so quietly, the little men tip-toed off into the forest. Not once did anyone speak. Not a sound was made until the little men had reached the outer border of the maple forest. Without noise or murmur the other leaders followed Iglip who climbed to the uppermost peak of a towering maple. Not until all were comfortably seated was a word spoken. Then, but not until then, did Iglip tell the other little leaders what had happened.

"Do you mean to say that Mr. Man in The Moon really and truly called to you from his great golden throne up there on the moon?" Asked Goliga, leader of the dwarfs. "And was it really he who guided us to this very spot?" Asked Menkita, leader of the Genies. "I certainly do mean just that", was Iglip's reply. "Look up my friends, look up" said Iglip. You just should have seen those little men when they looked up and saw, with their very own eyes, Mr. Man in The Moon smiling and waving to them from his golden throne. They, of course, smiled and waved right back at him. But you could see that they were absolutely spellbound. This indeed, was the most astonishing thing they had ever had happen to them. All their lives they had known that Mr. Man in The Moon was a real living being for, often, on a clear, bright, moonlight night, they had caught a faint glimpse of him sitting up there on his golden throne, but never before had he, their loving friend so clearly revealed himself nor had he ever, ever spoken to them.

In a clear bell-like voice, Mr. Man in The Moon said: "I am sorry to have had to disturb you from your night's sleep, my friends, but I had no other choice". "It is my wish that you, Iglip, come to the moon. It is very important that I see you before the dawn. I should like you to come as soon as possible—tonight if you are not too tired". He again waved and smiled to the awe-stricken little men before he faded and then vanished from their sight.

So excited and happy were the little fairy leaders that they no longer remembered to speak in hushed voices. My, what a babble! But then, I am sure that you will agree that this was, indeed, very good cause for excitement.

FOREST PROTECTION . . .

FISH AND WILDLIFE:

BEAR—Bear were numerous all over the district last fall. A number of them were killed during the first few days of the deer hunt, but as soon as the snow came about the middle of the first week, the bears went into hibernation. Last week, Jim Scott, Lands and Forests Scaler of Apsley, called to officer Trotter—"Do you want a bear, here's one asleep". Officer Trotter called back "No! Let him sleep".

There is a significance in the above mentioned incident in that it clearly indicates a sensible attitude toward wildlife—if you can't make use of any game, then don't destroy it—if you don't want it, don't kill it—live and let live.

A. B. WHEATLEY, District Forester

Parry Sound vs. Minden Next Thursday Night

A week from this Thursday night on Feb. 11th the Minden Monarchs will be at home to meet Parry Sound in the final scheduled game in the O.H.A., Muskoka League. The Monarchs who are still fighting for a play-off birth will be playing it hard to get into the running. The Monarchs who have a good team this season have been playing great hockey at ho-

me and winning most of the home stands but have been unfortunate on the road as they have dropped quite a few games due to the fact that they have played most of their away games while being short handed. But next Thursday night is another night and you can bet your last dollar that the Monarchs will be going all out to win this last home game in the schedule.

It's Thursday night, Feb. 11th, Minden Monarchs vs. the Parry Sound hockey club. Don't miss it!

Vestry Meeting At St. George's

The annual Vestry Meeting of St. George's Church at Haliburton preceded by a pot luck supper was held in the church basement on the evening of Monday, Jan. 25th.

Reports were presented by the various organizations and in every case were most encouraging, reflecting the great progress that had been made in the work of the church during the past year.

At the conclusion of the presentation of the reports of the different branches of the church the election of officers was held which resulted as follows: Incumbent's Warden Mr. Hugh Burke; People's Warden Mr. Allan Botting; Lay delegates to Synod Messrs. Glen Hodgson and Joe Taylor; Substitute delegates Messrs. Fred Clements and R. M. Dart; Envelope secretary Mrs. Mendal Smith; Treasurer Fred Clements; Parochial Representatives to Great Chapter Messrs. Bruce Henry and Roy Rowe; Auditors R. M. Dart and Joe Taylor; Chairman of Advisory Council Mr. G. H. Thayer; Chairman of Sidesmen Mr. Roy Howe.

A letter was read at the meeting from the Coadjutor Bishop, the Rt. Rev. F. H. Wilkinson, regarding church extension and a plan to use the Wells' fund raising organization in each Parish of the Diocese.

At the conclusion of the meeting the Rev. J. M. Cathcart expressed his appreciation for the support and co-operation tendered him by the officers and members of the various organizations of the church.

"Operation Health"

This is Canada's National Health Week, officially set aside to inform all Canadians about the things they can do to enjoy the fullest measure of health.

There is a healthier life for everyone who follows positive health rules. Summed up briefly, they are a balanced diet, adequate rest, sufficient exercise, regular medical care. A balanced diet includes those foods advocated in Canada food rules, sometimes called the "Basic Seven". Every one needs to have three meals a day, seven days a week. Each person's requirement varies according to his work, but essentially the foods are the same, only the amounts are changed. Milk, meat or meat substitutes, vegetables, cereals, bread, fruit as well as some form of vitamin D constitute the "Basic Seven". Ofttimes a check on our menus, with the question "How well fed are we?" reveals a need to change and add to our accustomed meals.

Adequate rest, that is sufficient for the body to renew itself from fatigue and carry on the duties each system demands. For some people 8 hours is a minimum, for others a little less or more. Children especially need rest to meet the demands of their growth and development "Early to bed, early to rise, makes a man healthy, wealthy and wise". Exercise or recreation is the third rule for healthful living. In the fresh air or indoors, it is essential. Housework is not the best form of exercise, so the busy mother

Huskies Win Home Game 8 - 3

The Haliburton Huskies won another game on home ice on Saturday night last when they took the Keswick Flyers into camp by the score of 8-3. The Haliburton crew who got off to an early lead were never headed and one could feel that the Huskies had everything under control. The locals seemed to be really shooting in this contest and were dead eye on that Keswick net. The Huskies front line were again the big guns in this game as they fired home 5 of the winners 8 tallies. — Ken Carnochan drove home two goals, Herb Baker had two counters, and Stuart — who has just recently returned after having his nose broken scored one. The other Huskies goals came off the sticks of Joe Iles and Boyd Robertson. The loss for the Keswick Club moved them closer to the cellar in the Tri-County while the win for the locals put the Huskies closer to the top rung in the league. It was a very clean game played before over 300 fans and only a few penalties were handed out.

This Saturday night it is Sutton with the game of the year.

Monarchs Beat Indians 6 - 5

The Minden Monarchs pulled a close contest out of the bag on Tuesday night — when they downed the Gravenhurst Indians by the score of 6 to 5. — The Monarchs played without a few of their star players who were out with injuries but filled in with Hadley, Hamilton and others and these players came through in good fashion. Gravenhurst pressed hard at times but they didn't seem to have the finish around the net.

Letters to the Editor

The Editor,
Haliburton County Echo

Dear Sir:—
I note in the report of proceedings of the council A. H. M. an item showing rebate made on certain rates. Do not all matters of this type come under the jurisdiction of the Court of Revision?

Also the item of request for changes on approach from Highway 35 south of the village. There is now a three lane section, definitely marked and a very plain sign for guidance. What more could be done?

Would it not be better to have forwarded a letter of appreciation for the great amount of money spent over the past few years by the Dept. of Highways and Dept. of Lands and Forests. Honey is much better bait than vinegar.

needs to have her opportunity for recreation and exercise. Just how a mother can be allowed time for this, takes consideration, but it benefits compensate adequately, when it is achieved.

Regular medical care, the yearly or two yearly checkup from infancy to adulthood, is needful in the early detection both of disease and defect. Sometimes when a child is apparently healthy, this visit to the family doctor is neglected. Health is wealth and only those who enjoy the benefits of good health enjoy the fullest measure of successful family living.

"OPERATION HEALTH" or "BETTER HEALTH" is "FOR YOU" and "UP TO YOU". Will it be "YOURS"?

Haliburton Red Cross

The annual meeting of the Haliburton Branch of the Red Cross was held on Friday, January 29 in the Committee Rooms in the Nurses' Residence with a very good attendance.

The meeting opened with the National Anthem with Rev. T. Rutherford in the chair. Mrs. Walter Kellett presented the minutes of the Annual Meeting 1952 followed by the Treasurers Report given by the Rev. Rutherford in the absence of the treasurer. Mrs. Boyd Austin reported for the sewing committee and reported that with the help from the ladies of Lochlin and West Guilford 234 articles have been finished.

Mr. Rutherford the retiring president thanked the members for their support during the period of office and had words of welcome for the new president.

The report of the nominating committee was presented by Mrs. Fred Jones, who selected the following to conduct the affairs of the Society for the year of 1954.

President Mr. James Cooper; 1st Vice President Mr. Harold Hill; 2nd Vice President Mrs. Elwood Austin; Secretary Mrs. Walter Kellett; Treasurer Mrs. C. W. Hodgson.

Among those who were made new members were the following: Mrs. Harold Hill, Mr. Alvin Kaye, Mrs. Wm. Cowan, Donald, Mrs. Russell Burk, Mr. Cecil Burk, Mr. N. R. Grose, Mrs. A. H. Curry, Mr. Hebe Watt, Mr. Robert Bishop Sr., Mrs. Harry Bishop, Mrs. George Wheeler and Mr. Cliff. Brealey.

During the evening the members were treated to a very interesting address by the Rev. Mr. Vaclavik of Minden who described his home life in Luhlavice which is situated in eastern Europe and of his first remembrance of the Red Cross.

The speaker was thanked by Mr. W. R. Curry.

Two members who have rendered great service to the local Red Cross in the persons of Mrs. Alfred Sisson and Mr. Ben Walling were made life members. No two people were ever more entitled to such an honor.

Refreshments were served at the close of the meeting with Mrs. E. Austin, Mrs. Boyd Austin, Mrs. Earle, Mrs. Yarnold, Mrs. Fred Jones and Mrs. Walter Kellett acting as hostesses.
